PINNACLE INSTITUTE OF TECHNOLOGY

Enabling Access to Quality Education

Scholarship Document

Financial Support for Meritorious & Deserving Students

[PLACEHOLDER DOCUMENT — replace institute name, logo, and figures before use]

1. Objective

Pinnacle Institute of Technology offers a range of scholarships to recognize academic merit, encourage participation in co-curricular activities, and support students from economically weaker backgrounds. This document outlines the categories, eligibility, and application process for all institute-administered scholarships.

2. Categories of Scholarships

3. Eligibility Conditions (General)

Applicant must be a bona fide, full-time student of Pinnacle Institute of Technology with no active disciplinary case.

Applicant must not be a defaulter on institute fees at the time of application.

A student may hold only one merit-based institute scholarship at a time; government scholarships may be availed concurrently subject to norms.

First-year students are considered based on entrance exam rank; from the second year onward, eligibility is based on the previous year's academic performance.

4. Application Process

Applications open at the start of each academic year and are submitted online through the student portal under "Scholarships."

Applicants must upload supporting documents: latest mark sheet/grade card, income certificate (if applicable), category certificate (if applicable), and sports/cultural achievement certificates (if applicable).

The Scholarship Committee reviews applications and publishes a provisional list within [4] weeks of the application deadline.

Objections or grievances regarding the provisional list may be raised within [7] days, after which the final list is published.

Approved scholarship amounts are credited directly against the tuition fee for the relevant semester; no cash disbursement is made.

5. Renewal Criteria

Merit-based scholarships are renewed annually subject to maintaining the minimum CGPA specified for that category and clean disciplinary record.

Means-cum-merit scholarships require annual re-submission of updated income certificates.

Failure to meet renewal criteria in a given year results in discontinuation of the scholarship from the following semester, without affecting scholarships already disbursed.

6. Government & External Scholarships

Students eligible for central or state government scholarship schemes (e.g., Post-Matric Scholarship, National Means-cum-Merit Scholarship, state-specific schemes) are encouraged to apply directly through the respective government portals. The institute's Scholarship Cell assists with verification and documentation as required by these schemes.

7. Important Notes

All scholarship figures and percentages listed are indicative and subject to approval by the institute's Finance & Scholarship Committee each year.

The institute reserves the right to withdraw a scholarship in cases of academic dishonesty, disciplinary violation, or submission of false information.

Decisions of the Scholarship Committee are final and binding.
